

Q-MSA/B/C

Battery Module Power Systems

Description

The Q-MSA/MSB/MSB battery configurations provide expandable backup options for desktop power solutions. They offer reliable, high-quality power with plug-and-play design and a robust remote management & notification system.

Features and Benefits

- High-resolution sine wave output
- Customizability to fit your equipment needs
- Plug-and-play modular design, no assembly required
- Remote management & app notification system
- High MTBF

Specifications

Standard Operating Temperature	MSA/B/C: -15° to +40° C
Optional Operating Temperature	MSA/B/C: -40° to +80° C
Dimensions HxWxL	MSA: 14"x7"x19.5" (35.6 cm/17.8 cm/49.5 cm) MSB: 27"x9"x22.75" (68.6 cm/22.9 cm/57.8 cm) MSC: 33.3"x18.9"x13.4" (84.6 cm/48 cm/34 cm)
Weight	MSA: 95 lbs (43 kg) MSB: 190 lbs (86 kg) MSC: 280 lbs (127 kg)
