

EVPHD8

Single & Dual Heavy-Duty 8-foot EV Charger Pedestal

Description

The EVPHD8S, EVPHD8D & EVPHD8U EV pedestals offer a heavy-duty and robust construction for both single and dual charger mounting options. They are ideal for parking lots and garages. In larger installations, dual mount pedestals can help reduce the overall cost of installation. EV charger(s) sold separately.

Features and benefits

- Galvanized steel construction for long lifetime
- Single and dual charger configurations
- NEMA 3R environmental rating
- Optional cable retractors for cable management
 - Retractors sold separately
- Chargers hard-wired through pedestal

Applications

- Residential & Multi-unit dwellings
- EV infrastructure and service providers
- Retail & Hospitality
- Public & Commercial buildings
- Municipalities
- Small, Mid and Large Fleets & Depots
