

EVQC-CCS1-NACS

CCS Combo 1 to NACS Charging Cable Adapter

Description

The EVQC-CCS1-NACS is a CCS Combination 1 (**CCS1**) to North American Charging Standard (**NACS**) charging cable adapter. This product accepts a CCS1 cable from a DC fast charger and converts the plug to the NACS (formerly Tesla) plug, expanding the accessibility of EV chargers used in North America.

EV charger(s) sold separately.

Features and Benefits

- Converts CCS1 to an NACS charging plug
- Suitable for DC fast charging up to 100 kW
- Compatible with Tesla North American vehicles
- Connects directly to CCS1 plug on various EV chargers

Specifications

Part Number	EVQC-CCS1-NACS
Current Rating	200 A
Voltage Rating	500 VDC
Weight	0.8 lbs
Operational Temperature	-30 °C to +50 °C
