

Quality Policy

Power Innovations International (Pii) is committed to:

- ◆ Following strict production safety practices to reduce the risk of injury and ensure employee health and well-being.
- ◆ Providing customers with products and services through our power management technology, innovation, and integration capabilities.
- ◆ Creating innovative, state-of-the-art solutions for conversion, integration and management of electrical power, ensuring a safer and sustainable future for our customers, investors, and employees.
- ◆ Designing and manufacturing high quality, technology driven products that meet or exceed our customer expectations.
- ◆ Delivering products and services in an accurate and timely manner.
- ◆ Striving to continually improve our processes and Quality Management System to achieve production proficiency and long-term customer satisfaction by setting goals with quantifiable objectives or KPI's in critical processes.

Everyone at Pii is responsible and accountable for:

- ✓ Safety
- ✓ Product Quality
- ✓ Customer Satisfaction
- ✓ Continuous Improvement
